

Arijun Sharma

Frontend Developer

arjun.sharma@email.com • +91 98765 43210 • Bengaluru, India • github.com/arjunsharma

PROFESSIONAL SUMMARY

Frontend developer with 2 years of experience building responsive, high-performance web applications using React and JavaScript. Passionate about clean UI, RESTful integrations, and delivering user-centric products.

EXPERIENCE

Frontend Developer — Razorpay

Jul 2022 – Present

- Built a merchant analytics dashboard in React that reduced report load time by 40%.
- Integrated 15+ REST API endpoints for real-time payment data visualisation.
- Implemented responsive design with CSS Grid/Flexbox; zero layout issues across devices.
- Migrated legacy jQuery code to React hooks, reducing bundle size by 28%.

Junior Frontend Developer — Innovaccer

Jan 2022 – Jun 2022

- Developed UI components for a healthcare data platform using React and Tailwind CSS.
- Maintained Git-based CI/CD workflow; reviewed 50+ pull requests.

SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express, REST APIs

Tools: Git, GitHub, Figma, Webpack, Vite

Databases: MongoDB, Firebase

PROJECTS

E-Commerce Admin Dashboard

Built a full-featured admin panel with React and Redux Toolkit. Integrated Razorpay payment APIs and generated dynamic reports with Chart.js.

Real-Time Task Manager

Developed a collaborative task management app using React, Socket.io, and Node.js backend. Supported 5,000+ concurrent users.

EDUCATION

B.Tech in Computer Science — VIT University, Vellore, 2022
